Personal introduction

Sept 2018 – Jun 2022

Business School of Hebei University

(Bachelor)

Data Science and Big Data Technology

I prefer to read books about cutting-edge technology orientation. I have won school level scholarships for many times and ranked in the top 10 of my major. During my college years, I have actively participated in activities organized or organized by organizations for many times, with a strong sense of collective honor. In many subsequent practices or internship projects, I can adapt well to team development, get along well with team members, like outdoor sports, are humorous, cheerful, and like programming. Enjoy it!
